their accomplishments that every person should know. Do you know which U.S. President established the Office of Minority Affairs? Who was the first African-American to earn a Ph.D.? What state east of the Mississippi was the first to give African-American women the right to vote, in 1913? These are just some of the questions you'll find in this volume. I especially liked having each set of answers on the same page as the questions. The author also includes a helpful bibliography for further study. Highly Recommended. 1 of 1 people found the following review helpful. not bad By Nasir I guess it was not the format that I wanted. I thought it would have more detail for each fact. It is still a good book for some facts that school books seem to overlook.
