**Frank Longo : 10 x 10 Sudoku** before purchasing it in order to gage whether or not it would be worth my time, and all praised 10 x 10 Sudoku:

2 of 2 people found the following review helpful. My favorite puzzle bookBy MstrRgrsI think this is really my all-time favorite puzzle book. This is the third time I've bought the same book and I'm enjoying working the same puzzles as much the third time as I did the first. Unlike crossword puzzles, you can keep coming back to the same sudoku puzzle and, after working a lot of other puzzles in the meantime, it's just like a brand new puzzle. I've never found this 10x10 concept in any other book, and I find it a really super challenge compared to the 9x9 puzzles. But it's not for the casual puzzle solver - only those who have spent enough time with the regular 9x9 ones that you are ready for a new challenge.0 of 0 people found the following review helpful. Five StarsBy dianeGlad to try something much harder for

Sudoku fans always keep an eagle eye out for fresh formats featuring their favorite puzzles. Here's one sure to draw them in: 210 sudoku that add a little spice to the mix by changing the standard 9 x 9 puzzles to 10 x 10. That means solvers get 100 squares instead of just 81! And the numbers go from zero to nine, rather than one to nine. Plus, the smaller sections within each grid are no longer 3 x 3: half the puzzles feature rectangular 5 x 2 boxes and the rest come in various random shapes, with heavy lines marking out the separate areas. It may seem daunting at first but it's fun!

About the Author Frank Longo has had more than 3,000 crossword puzzles published since 1993, and in the past few years has turned his attention to the sudoku craze. He has published over 100 sudoku books, including *Oy Vey! Sudoku*; *10x10 Sudoku*; *Absolutely Nasty Sudoku Levels 1, 2, 3, and 4*; *The World's Longest Sudoku Puzzle*; *The Sudoku Code* (coauthored with Francis Heaney); and *Puzzlewright Guide to Solving Sudoku* (coauthored with Peter Gordon).
