Just What a Busy Guitarist Needs By Bill the Cat All the lessons contained in this book are two pages in length just what you'd get if you went to a good teacher once a week. I liked it so much that I sent my brother a copy! 2 of 2 people found the following review helpful. Awesome for guitar teachers! By Brian Auer I purchased the 100 Jazz lessons to increase my vocab of Jazz ideas and was so blown away by the examples I immediately bought the entire series. At first I was a bit burned some didn't come with CD until I

realized how awesome the online access was. First you can either download the entire 100 tracks or each individual track. But that's not the best part, the player allows you to loop examples, slow down or speed up the example to 200% and change pitch to match your tuning. Which is great for anyone. It has a ton of great lessons for my students. The books are packed with examples and theory/concepts to give your students some inspiring stuff as well as give me a bit of a break on having to come up with all the curriculum. That give me more time to focus on developing my other methods. These books are a godsend! I recommend anyone at any level to get them all. 11 of 11 people found the following review helpful. This jazz book came with the 100 lessons as advertised ...By JeffThis jazz book came with the 100 lessons as advertised. It is not a beginners book and is going to take me a long time to work through. It was delivered on time and as advertised. There is a wealth of information provided and I look forward to tackling it in the coming years.
