I LOVE the Codeword puzzles in the puzzle books, but these are not quite the same. Some of the chosen words in these I feel are either misspelled or they are not words that would be typically assigned to a crossword, Example: "prizefight", I would never have guessed this was the word and I had to double check it was

right because it was out of the ordinary. Another example was "pasteurise" Again I was thinking it should have been "pasteurize". So these kind of make it no fun...0 of 0 people found the following review helpful. Can't put em down.By diniI love these code word puzzles. They really keep me entertained, especially during commercials while watching TV. I take these when I go to the doctor and have to wait for my appointment.0 of 0 people found the following review helpful. Skip this book!By AmyThis book leaves much to be desired. Words are misspelled. Many words I have never heard of before. There are words that I question if they are actually words at all. There are a number of distasteful words. I do not recommend this book.
