very good book, much better than I expected. The big draw for me was that it offered information and interviews about literally every single significant moment in Superman 's history. I was especially excited to see information about the Superboy TV series and the Ruby-Spears animated series. A must have for any Superman fan0 of 0 people found the following review helpful. OkBy Reviewer from TerraAn ok book with some interesting and some less than interesting information about the man of steel. Worth reading once.1 of 1 people found the following review helpful. Five StarsBy working momLoved this book!
