This latest addition to the best-selling 1001 series offers more than ever the worlds biggest and best playlist, referencing over 10,000 must-download songs. This book offers more than any previous book in the series. While each main entry profiles and illustrates 1,001 primary songs, it places that song into a contextual web of music history with references to other songs that are musically related. Thus, each entry points to alternate versions, covers, riffs, and influences effectively expanding the total number to 10,000. From the Beatles to Beyonc, from Elvis to Elvis Costello, from Frank Sinatra to Rufus Wainwright, the full spectrum is covered chronologically and includes additional ancillary lists of "must-hear" songs grouped by subgenre and other special categories. Each song is analyzed by an international team of critics who explain why you must hear it. Included are key details such as lyricist, composer, producer, and label, making this a music treasure trove perfect for anyone into music, addicted to downloading, or those just getting started.
