I have used practically every method book for school use ever written going back to Muller-Rusch and Sam Applebaum. No method book is perfect. I would often change books every few years in search of the "perfect" book. In the last four years, this book has been my choice. It seems that a lot of thought went into this book by the two authors. I really like the video DVD that comes with the book. It is EXTREMELY helpful as the videos reinforce the first few lessons in the book. That is a time when there is a lot of confusion for the students and to have that there for them to use at home is a blessing.0 of 0 people found the following review helpful. Perfect Beginner Book for CelloBy C-JThis is perfect for beginning cellists. I really like the String Basics series for beginner strings players. It's very informative and comes with lots of instructional tips and hints. The DVD is also really helpful.0 of 0 people found the following review helpful. Five StarsBy niftyandthriftI use this as a supplement to my regular method book in the classroom.

String Basics: Steps to Success for String Orchestra is a comprehensive method for beginning string classes. Utilizing technical exercises, music from around the world, classical themes by the masters, and original compositions, students will learn to play their string instruments in an orchestra. Step-by-step sequences of instruction will prove invaluable as students learn to hold their instrument and bow, finger new notes, count different rhythms, read music notation, and more. Clear, full-color photographs and fingering chart diagrams introduce playing positions, bow hold and bowing, and left hand finger patterns. Duets, rounds, trios, and orchestra arrangements develop student's ability to play in an ensemble setting right away. Duets are designed to strengthen ear training and establishing good information. Interactive Practice Studio is a unique and trendsetting downloadable resource containing a wealth of supporting biographical, historical, and cultural information; photos, maps, artwork, audio samples, video and more. It's designed with your students in mind. Fun - Inspiring - Motivating! Video Lessons offer students and teachers a comprehensive, step-by-step look at concepts taught throughout String Basics. Lessons are taught in a middle school classroom setting by authors Shade and Woolstenhulme. Lessons show special consideration for each instrument and one lesson is specially devoted to shifting for the bass. Theory Composition offers students hands-on experiences to better understand what they see and hear by actually learning to notate music and compose simple melodic lines. The Teacher's Edition provides successful teaching strategies as they pertain to the material introduced throughout String Basics. The Strategies are divided into two categories: Performance and Musical Understanding. Through them, guidelines and guide- posts assist towards giving students a comprehensive experience in orchestra. Also available to teachers is the Interactive Teacher's studio, offering even more helpful tips and strategies.

About the Author Terry Shade is an active string educator at Issaquah Middle School in Issaquah, Washington. Nationally recognized as a string specialist and project facilitator at the middle school/junior high level, Ms. Shade has presented workshops and clinics around the United States on the subject of establishing successful beginning string orchestras. She has also conducted all-state and honor orchestras throughout the country. Her teaching experiences prior to Issaquah have included positions in Atlanta, Georgia (Gwinnett County), and Las Vegas, Nevada. Her leadership as mentor and project facilitator there prompted the state of Nevada to honor her with the prestigious Steve Maytan Contribution to Education Award.
