By Anonymous This book is full of the kinds of tricks we did as kids (i.e. - stick our finger through the bottom of a large match box, stuff cotton around our finger, squirt some ketchup around it, and tell our friends it's a "finger from an ancient mummy"). The caliber of these tricks is meant for kids ages 4-8 (if you dare putting your children at risk of being ridiculed by their peers for performing these LAME tricks). I do not recommend this book for ADULTS. I only recommend this to children as reading material only, not performing. 2 of 8 people found the following review helpful. This book changed my life !!! By A Customer Sophie Blackall is quite obviously a genius - publishing a complete collection of fabulously silly games and tricks that can improve any dinner party. The illustrations are delightful - charmingly accurate and yet worth viewing in their own right. This is another excellent book from watermark press.

How much fun can one person have with a banana? The answer lies in this illustrated compendium of twenty wacky tricks. Making use of objects that can, like all the best guests, be found in the kitchen, 20 Party Tricks is funny, amazing, easy to follow, and occasionally downright disgusting. It's also the perfect gift for the hostess with the mostest, the wallflower longing to blossom, and anyone who'd like to be the life and soul of the party.
