Everybody who does voice training at high school and college ...By AstuteBuyerEverybody who does voice training at high school and college level have to wade through Italian songs. Singing with the Italian vowels is the foundation of every voice training. And voice students get to sing the same song in a key that is most appropriate for their ever changing voice range and quality. Getting this book is a must for every voice teacher and accompanist. I would get it for the student as well so that the student can pick out the notes on a piano.0 of 0 people found the following review helpful. A must have!By CustomerI recently got a position teaching voice at a university and this was the first thing I purchased! A must have for any voice teacher!0 of 0 people found

the following review helpful. Perfect for my vocal studio. By Stephen J. Burke Just as posted, fine new edition.

(Vocal Collection). Most voice teachers and singers still prefer the pianistic, wonderfully gratifying editions made by Alessandro Parisotti (1853-1913) of early Italian arias. This newly researched edition, with updated composer attributions, features new, clean music engravings. The collection includes the original contents of 24 Italian Songs and Arias of the Seventeenth and Eighteenth Centuries plus four additional Parisotti editions. Also includes international phonetic alphabet for each song text, word for word translations for study, historical introduction for each aria, and a preface on Parisotti and his approach to this music. This compilation includes the High, Medium High, Medium, Medium Low, and Low editions in one book, perfect for teacher reference. The "Complete" set is comparable to a retail price of \$49.95 if components are bought separately.

About the Author Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time.
