I wanted a way to analyze the chorales without spending a lot of money and this gives me just what I wanted. Print quality is a bit low, but not really a problem for what I am

trying to do. In most cases, the lyrics do not get in the way of playing it on the keyboard.1 of 1 people found the following review helpful. Nice WorksBy Z. SimonI bought this collection for use as a sight-singing exercise with my choir students. I like the way it is laid out: the 2-staff style makes it easy to bang out on the piano.Bach was, of course, a great writer, and these works are also great for basic tonal harmony study.0 of 0 people found the following review helpful.
