This book was the perfect Christmas present for my momBy CustomerThis book was the perfect Christmas present for my mom, who loves these kind of puzzles. She has been happily working on it for the last several weeks. I can't understand the 3 star reviews on here. It's a variety puzzle book... you should expect not to love every single puzzle or every single crossword clue. Don't let their reviews stop you from buying this as a Christmas present in 2017 and beyond!1 of 2 people found the following review helpful. ' I feel that it would have been better to ask for something like 6+ letter wordsBy MichFanI was excited to see a new

Christmas activity book for sale. This book is large and filled with puzzles. It has a mix of puzzles, but I would not buy this specifically for a kid- not to say they are marketing it that way, but it came up between The 12 Jokes, Activities, and Coloring Pages of Christmas for Children and a Disney Princess coloring book in my search. The issues I have with the book are that the types of puzzles are very repetitive and also that some of them will not provide all the answers. For example, they will give you a bunch of letters to make one long word, but then also tell you to make as many words as you can, only to give you an answer key of 'there are over 90 words.' I feel that it would have been better to ask for something like 6+ letter words, but then list the answers. 0 of 0 people found the following review helpful.
