If you can even come close to playing Franz Liszt's most ridiculous works because you're a classical pianist in the 21st Century this is the book for you. This book in the epitome of becoming a piano God so even if you buy it just to read you are having a glimpse of what only euphoric musicians dream of achieving. If you buy this to learn and play Liszt's grand Paganini Etudes you will transcend the realm of music as we know it and become a piano legend. Kudos.
