Good for Scholarly Work By Kelli Adds several questionable gestural, dynamic, and phrasing suggestions that are not consistent with the Urtext editions, but the large print is nice and for the most part, this is a faithful edition, useful for scholarly study more than one for performing purposes. 0 of 0 people found the following review helpful. A Good Edition for Viola By Caroline B. This is adapted for viola. Louis Svecenski is not the edition my teacher had me get so this is not the edition I use. I have a fine student who prefers this one. 0 of 0 people found the following review helpful. Five Stars By Patricia B. Excellent. I use different bowing but all the notes are there.

(String Solo). For unaccompanied cello.
