Mark Phillips : 70 Bach Chorales for Easy Classical Guitar Book Online Audio before purchasing it in order to gage whether or not it would be worth my time, and all praised 70 Bach Chorales for Easy Classical Guitar Book Online Audio:

0 of 0 people found the following review helpful. Good, simple arrangementsBy Jeff WelinNice, playable arrangements. Great collection to have if you like Bach!0 of 0 people found the following review helpful. Five StarsBy VINH DUC NGOvery good1 of 2 people found the following review helpful. 70 Bach chorales for Classical Guitar.By david ellisThe book is in good condition with readable and effectual studies for the guitar. The amount of material is great.

(Easy Guitar). In the early 1700s, Bach's chorales enchanted listeners with their inventive harmonies, chromaticism,

contrapuntal motion, and changes of tonal center. Since that time, music students the world over have studied the chorales as a paragon of "common practice" harmony and voice leading. And by virtue of their sublime beauty, musicians continue to perform the chorales to this day. The four-part texture of the chorales can make their performance on guitar with its fingering limitations somewhat problematic. But by sometimes thinning the texture to three or two parts, and sometimes inverting the lower parts (allowing the alto or tenor to temporarily serve as the bass), we've created easy-to-play classical guitar solos that capture all the interest and beauty of Bach's original compositions. The book also includes recordings of every piece. The audio is accessed online using the unique code inside each book and can be streamed or downloaded. The audio files include **PLAYBACK+**, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right.
