By Mary Anne Sheehy Yes,, it is exactly the same book which my organ teacher gave me to work on. Years ago. Thanks so much. I am retired now and keeping music in my life is important. Just what I wanted to work on. Thought I would never see it again. 7 of 7 people found the following review helpful. Bach Little Preludes and Fugues for Organ By hearsmusic I have used this book for years. In fact, I wore it out and had to buy a replacement. It is excellent for teaching young organists, but I have also used it to make string arrangements for young string players. It is the heart of Bach in a playable form. I highly recommend this edition. 4 of 4 people found the following review helpful. An old friend By T. Waugh I played the 8 Preludes and Fugues well over 55 years ago when I was a teen organist. Did not keep it up -- but still play the piano. A real pleasure and challenge to play these works on a piano trying to combine the pedal where I can. It was a great price for an old favorite of mine. The book was used with the previous owner's name in it dated in 1971. I was a captain in the USAF then and had just returned from overseas in the far east. Wondered if the person had continued to play; I hope so. At least, her annotations were quite useful.

(Organ Collection). Contents: Prelude Fugue in A Minor * Prelude Fugue in B \flat * Prelude Fugue in C * Prelude Fugue in D Minor * Prelude Fugue in E Minor * Prelude Fugue in F * Prelude Fugue in G * Prelude Fugue in G Minor.
