She is learning all the words, and loves to grab it off the shelf to read/sing. I highly recommend if you have a child who loves books that include songs to be sung!1 of 1 people found the following review helpful. Children's BooksBy 2Margaret JohnsonThis was a great book, the pages were very colorful and my granddaughter loved it2 of 2 people found the following review helpful. Best Childrens Nursery Rhyme Song book everBy Nancy MathewsI bought this book because I now have a beautiful Grand Son. I was singing to him one day and realized that I've forgotten most all the lyrics to the nursery songs I grew up with. This book has them all. The illustrations are perfect, the text is easy to read. I can't wait to teach all these classics to my grandson.

Baa Baa Black Sheep, have you anysongs? Children love to sing and be sung to, and these perennial tunes are always tops on the kids hit parade. Little ones will love the repertory that includes Ive Been Working on the Railroad, Pop Goes the Weasel, and Row, Row, Row your Boat. And somelike Itsy Bitsy Spider, Pat-a-Cake, and If Youre Happy and You Know It are more than just fun: they develop physical dexterity and teach parts of the body. All the songs are great for entertaining restless youngsters on car trips, during play dates, or on a rainy day.
