I am delighted to find both Volumes in one book. The CD accompaniment is useful for those who don't read music flawlessly, or who don't play the piano. Just remember that as the singer, you are not in charge of the tempi or phrasing that you would be in a live performance. I bought this in all of the different keys available, for use with my students who sing in different ranges, and most songs

work in all of the keys supplied.0 of 0 people found the following review helpful. Good StuffBy gmtenorWorth it, the online piano accompaniment make it easier to practice at home. (Boosey Hawkes Voice). The two sets of Old American Songs are beloved, standard vocal literature. This edition combines both sets in one publication, available for the first time with a CD of piano accompaniments.
