From Faber Piano Adventures : Accelerated Piano Adventures Performance Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Accelerated Piano Adventures Performance Book 2:

2 of 2 people found the following review helpful. Truly accelerated. By Sondra S. great book! I liked it very much. The student who got it found it very challenging so I would say make very sure your student is going to be able to handle this; it moves more quickly than the regular piano adventures. Just saying...it truly is accelerated. 2 of 2 people found the following review helpful. Five Stars By Barney Worked out good. 2 of 2 people found the following review helpful. another excellent piano book By Lizann great songs; useful progression of difficulty; the duets are well arranged (and it's so fun for beginners to play music with their instructors!)
