Five Stars By Briann Cooper I need help on some of these songs I'm just learning to play guitar thought this would challenge me 1 of 1 people found the following review helpful. Don't be fooled, it's not for Dummies. By Customer Don't be fooled by the title, this is not for Dummies. If you do not have a working knowledge of sheet music, you'll need to learn. I was expecting a more "walkthrough" version. It comes with tabs for those who can not read sheet music but unless you have the song handy, it's difficult to pick up and play. I'm very new to the guitar and found Guitar for Dummies by Emedia (also on this site) much more helpful as it has video and audio instruction as well as animated fretboards. If you are completely unexperienced or need instruction, this is

not it. The chord chart in the back also lacks any of the suspended chords called for in the songs. Don't know what a Csus2 is? You won't find it in the book. However, if you can read sheet music, you'll do fine in buying this book. 0 of 0 people found the following review helpful. Five Stars By Bill Robel Great product
