While I enjoy most all of those, this set is a bit of a mix. Enjoy Extrmeme prejudice (also on another set) The Couple next door and the Flaw. Most of the others were satisfactory. Not crazy about Blind Flight, but I really get angry at Trial at Wolf Trap. Reason? It's not complete! It's at best an act and a half, and while I realize these are meant to be 20 minutes in length, I feel this one should be rewritten or left out as the conflict and therefore the story is not complete. I guess getting a strong reaction from a story is a good thing, good or bad, but I just feel really angry that there are still many things left to be done in the story (spoiler alert!) , tasks, getting out, dealing with the menacing charactor....Well, it gets to me! Don't listen to that one anymore. But listen for yourself.0 of 1 people found the following review helpful. Act One: SuspenseBy Sharon J. Simply Enthralling!By Icarus CottontailMy girlfriend and I used to listen to these audioCDs every night before sleep. The quality of the stories is *wonderful*, and it's definitely worth the money. Our favorites are the ones titled 'suspense' and 'scifi'- the stories are colorful, inventive, timeless, and memorable.
