I have this and the Adult Piano Adventures Classic Book 1, and of the two I find myself opening the Classic book much more often. These popular tunes are too dated to be of interest to my students (who are on the young side.) As with all Faber books I like the layout and composition, and the fingering is easy to follow. This book would be good for older players.

Really, what do I know. I am just learning so I wouldn't know a good book from bad. I know the songs, so keeping proper time is easier!
