Deadly middle adventure in the Desert of DesolationBy Kent David KellyThe classic player torture device known as the Desert of Desolation series continues as the Pasha of the Efrete, Vizier of the Fire Sultan is freed - as destiny foretold - vent his rage on the world of mortals. But now, after centuries, all he finds are ruins and endless wasteland, and any living prey he discovers is doomed... of course, your players will love you for putting them in this situation. A wonderful desert / "tomb raider" adventure for levels 6-8.

The second module in the Desert of Desolation Series. "The wind rises, and out of the darkened sky comes a bolt of lightning. At its impact the ground shudders and you run for cover. What is that blue flame rising into the sky? What terrible new power have you unleashed?"
