Great TSR item.By HeathThey arrived early, and in better condition than was described.(almost mint)If you do not have this set and enjoy 1st or 2nd edition or play retro clones. This is one of the best supplements you can buy. Even when DD 5th edition comes it most of these items will be able to be easily converted into that system with little effort.This is great for experienced Dungeon Masters and new ones. It will keep players on their toes and help keep finding treasure fresh and exciting for the rest of you and your players lives.1 of 2 people found the following review helpful. Nearly PerfectBy Mitchell BaughcumArrived early and in good condition. Nearly perfect but the books were from different printings and not one complete set. If youre not a collector it is an awesome buy. I plan on using these frequently.
