Conceptis Puzzles : Advanced Sudoku On-The-Go! (On-The-Go!) before purchasing it in order to gage whether or not it would be worth my time, and all praised Advanced Sudoku On-The-Go! (On-The-Go!):

0 of 0 people found the following review helpful. Smooth paper makes for excellent erasures, the level of difficulty is goodBy Elizbeth A WrightApparently this book is now out of date but it's well worth the money if you can find acopy. Smooth paper makes for excellent erasures, the level of difficulty is good, and the binding is excellent. I have purchased several copies of the book.4 of 4 people found the following review helpful. Just Right SudokuBy macinflaThis book has just the right degree of puzzle difficulty for me. They aren't so hard that I can't finish them and they aren't so easy that I breeze right through a puzzle. Also, the size of the book is easy to handle and work with. I originally bought a copy of this book at a book store last February and I've almost finished it. I could only find the replacement online and I'm so glad I did. I'm looking forward to starting these puzzles all over again from the beginning!1 of 1 people found the following review helpful. It's simply ok.By Iris M. Escribano NievesI bought this for my mom who loves sudoku, and found this quite easy to do. It was disappointed to hear that because the cover says "advance". I little bit misleading.

Handy-sized book filled with 451 mind bogglers. In this Advanced volume, you'll test your skills and develop your abilities at thinking logically.
