I thought wrongly that if I bought a CD i did not have, it would have new stories on it. Now begins the tiresome process of comparing all the stories on all of our CDs to any new CD I purchase. Seems a little cheap to sell the same stories on multiple CD's, unless its a "Best Of" compilations. I am sure that the stories are wonderful, as they all are.3 of 3 people found the following review helpful. Awesome!By Shelley NessWe stopped watching TV because of all the bad influence. My children love the option of the Odyssey series. We can't get enough. I highly recommend all the Odyssey options, they make great gifts and stocking stuffers. I enjoy listening to Odyssey as an adult , with my children. It is a great family pre bedtime activity.3 of 3 people found the following review helpful. Christian perspective!By valarieIn today's world where media teaches children thier perspective of what is right and wrong, parents need all the help they can get. This is a great series which teaches kids Christian perspective using situations that they actually face. I bought them for my 9 year old son and he is just starting to listen to them. I have purchased several of these and would recommend them to parents!
