Dawid van Lill : African Wildlife Trivia before purchasing it in order to gauge whether or not it would be worth my time, and all praised African Wildlife Trivia:

1 of 1 people found the following review helpful. I usually love trivia books often times thinking By Debbie Odom I usually love trivia books often times thinking... "OMG, I didn't know that!" Most the time this book had me saying "who cares". If your looking for a book about African animals as I was, skip this book. It has some animals (like bedbugs, for gosh sakes) and plenty of land, water, weather, people, history etc. Definately not as advertised, or what I expected. Big waste of money.

Africa is famous for its abundance and variety of wildlife, making it a great attraction for hundreds of thousands of visitors every year. In many ways it is a continent of records. Dawid van Lill has produced a book of amazing records,

facts and did-you-knows that cast new light on our extraordinary continent. From lists of largest and smallest to detailed accounts of exceptional features, we are introduced to a vast range of facts about the world around us. A fresh design and light-hearted illustrations make the book highly accessible to both young and old.
