Well worth the moneyBy Marshall L. MerrillRather essential as a guide to AoE3, with good descriptions of the various armies and their strengths and weaknesses and how to proceed. I can't seem to do what they recommend in sending out armies early and often, all I can do is maintain the home town and fend off the AI attacks--so far. Not a game for a first time strategy players. Bought the book Age of Empires III Sybex Official Strategies Secrets. The book is

good as it describes all the campaigns, but you are really on your own when it comes to coming up with a strategy to defeat the enemy.
