Took off a star because 1) The box came in a little haggard-looking, although the box was fine. Corners bent, a little crease in the middle. The book wasn't damaged, and the actual toy was wrapped in plastic. Has one of those plastic tabs to prevent it from going off during shipping. 2) The sound is not as loud as I imagined it to be. Also, as the speakers are at the bottom of the stump, placing it upright on a desk will muffle the sound. It's a very sensitive button, just a little push and the thing will go off constantly. I put it in my purse to carry to work and freaked my dog out. Coworkers thought it was a hoot, now sitting on my boss' desk. Looks like I need to buy another one :) PS - This was 11.99 at Urban Outfitters! 1 of 1 people found the following review helpful. very goat like. Great novelty gift By Pathfinders It screams, very goat like. Great novelty gift. We use it to broadcast over the radio when something goat like occurs. Just wish it was louder, i mean come on its a novelty gift, why not be obnoxiously loud? My dogs chewed up the body of the first one i bought (i bought two) but it still screams so I am still happy 3 of 3 people found the following review helpful. bahhhhhhhhhhh By Customer Hilarious.
