Michael Okuda, Denise Okuda, Debbie Mirek : The Star Trek Encyclopedia, British Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Star Trek Encyclopedia, British Edition:

I had this when I was a kid BEFORE wikipedia and all that garbage. It was so cool to have all the Trek info in one place. I miss the good ol days of Star Trek.

This reference book, designed for Star Trek fans, brings together all three incarnations of the Star Trek phenomenon: the original Star Trek, The Next Generation and Deep Space Nine. It contains over 5,000 entries on alien races, planets and stars, weapons and tools and private jokes.
