It's the Words First!By James Hugh DruryIt begins with the idea, the vision, then the words go down on paper. Without the words, all an actor can do is stand there and emote, maybe. Without the words, all the crew can do is sit around and play with their equipment and watch the money fly away. Without the words, the studio has nothing to offer. It's the words first. Always.This is an easy review, a simple review.Buy this book to see how the words made the show.Buy this book to see how a television script looks.Buy this book to read excellent television scripts that became excellent television in the hands of a cast and crew of talented people.Buy this book to get a taste of the wider political times out of which the series came and to which the series spoke volumes. It is all here in the words.This is as good as a Master's Class in writing screen plays. Style, form, manuscript format, plot, character, how the background of the set can become a character itself, how the sum of the parts can definitely become greater than the whole. Great companion to the DVDs. Read the script first then watch the show. Then watch the episodes with the script at hand to see what went up on the screen. Annotate your copy, make notes, study and there's your class.Tuition? \$13.57 plus shipping (or not - could be free.)Other ideas: The West Wing Script BookEnjoy. It's the Words first.
