If you are not a big reader and like to read short stories or small bits of information at a time it is the perfect read. I kept it in my car for a while so when I had to go to doctors appointments I would have something to read.0 of 0 people found the following review helpful. Very good "input" for an active trivia buffBy Kimberly L. JarvisThis book is great to take to your doctor's waiting room. It's great for those of us with ADHD that don't have a long attention

span. No long chapters and no plots to remember from one chapter to another. I thoroughly enjoy this trivia book. One of the other trivia books in this series has a bit too much celebrity info in it but this one is great. I just wish it was a paperback or softcover. 0 of 0 people found the following review helpful. Useless Facts By Harley Todd This is a very good book IF you enjoy useless facts. I would recommend it to anyone who is bored with facts in everyday life.

Did you know this... Billy Crystal's childhood babysitter was the legendary Billie Holiday? It is physically impossible for pigs to look up at the sky? The dot above the letter "i" is called a "tittle"? Would you like to know which celebrities died virgins, or which novel was the first written on a typewriter? Or are you simply looking for some way to entertain yourself in the bathroom? Would you like to know the working titles of the Beatles' songs, or what things were invented by women? Answer "yes!" to any or all of these questions and This Booklike That Book is the book you've been waiting for!
