Tom Waits : Tom Waits - Anthology before purchasing it in order to gage whether or not it would be worth my time, and all praised Tom Waits - Anthology:

0 of 1 people found the following review helpful. Always Been a Big FanBy Michael BendeAlways been a big fan of Tom Waits. This book does a nice job of compiling a lot of great songs by Mr. Waits. Enjoying it greatly.5 of 5 people found the following review helpful. watered downBy Paul LloydNot real piano parts!!! Not sure who this is written for but I bought it for Ol' 55 and it's not even close to what he plays (or anyone one else who plays this song) wtf??? terrible!42 of 44 people found the following review helpful. hardly worth consideringBy Hart WilsonFor starters, the piano parts are so watered down it is difficult to figure out what they originally sounded like. This is par for the course as far as printed versions of popular music go. What really sets this book apart is that the piano part are no only watered down, they are bad. Any half-decent pianist could do better faking it. Not only that, but the rhythms on the

printed vocals are often nowhere close to those on the albums. To top it all off, large sections are completely cut out of many of the songs (Considering the quality of the piano parts, however, these missing instrumental sections will hardly be missed). The song selection is good but not enough to balance all its faults. Overall, I could only consider recommending this book to beginning piano students who are hard-core Tom Waits fans. Otherwise, save your money, cross your fingers, and hope a book containing decent transcriptions of these songs becomes available.

(Music Sales America). Complete piano/vocal arrangements with chord diagrams of over 20 of this poet/songwriter/actor's greatest hits including: Ol' 55 * Jersey Girl * Shiver Me Timbers * and more.
