**Kip Ward : Tomb Raider III: Prima's Official Strategy Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tomb Raider III: Prima's Official Strategy Guide:

0 of 0 people found the following review helpful. Three StarsBy Cheshire Cannot very detail maps this game is also super hard good challenge though0 of 0 people found the following review helpful. This takes me back.By AJBlessedLifeEasy to read and easy to understand. Love the large use of pictures too. This takes me back to a time where even though the graphics in these classics pale in comparison to games now, the gameplay seems to be far more fun and engaging than any of these newer games to me.0 of 0 people found the following review helpful. Five StarsBy Matthew RuschThe book was in great condition. I'm playing through the game with no problem now.

Extensive walkthrough of every level Valuable strategy for surviving every enemy, obstacle, and booby trap All secrets exposed Solutions to every baffling puzzle Make swift killings

.com Yup, she's back. Again (go ahead, pretend like you don't care). Lara's latest adventure sees her travelling all over the globe, from Area 51 to Antarctica, in search of a number of artifacts crafted from an ancient meteorite. The game includes a number of gameplay enhancements and new moves (crawling and the monkey swing), and this book explains them all. For newcomers, the book also explains each of the basic moves so that you can get up to speed in a hurry. You'll also get a detailed description of each location in the game, as well as an explanation of each puzzle you'll have to solve. Each level walk-through points out the best path as well as any secrets you might find. This is a thorough and well-written strategy guide for the biggest and best Tomb Raider yet. And, oh yeah, there are plenty of nice pictures of Lara--for those of you who are into that sort of thing. If ancient artifacts and mysterious genetic material don't entice you, there's always Lara.
