Since I bought halfway through 2014, I got a major discount. The book has tons of lists and tons of pictures to accompany them. Lots of topics of interest from pre-teens through adults. He has spent hours with it already; very entertaining for him. I have already pre-ordered the next version of the book which is due out in late September.0 of 0 people found the following review helpful. Perfect GiftBy morrene JacobsI have given this book every year to a good friend of mine. I started in high school and now he's in the seminary and enjoys it just as much. His sister even took it to Belize for me one Christmas when he was working in the jungle with Benedictine monks.0 of 0 people found the following review helpful. Almost just as previous editionsBy S. this book as a trivia source during long off site meetings, always works well. Previous editions had additional categories like top 10 fast food restaurants, busiest airports - a couple of categories I noticed missing from this edition
