Many of these 50 selections are the same as those in the Rolling Stones top 500 vol. 1 and 2. The selections I've played around with so far sound much like the original piece of music. They do take a while for this one year student of piano to master. A great piano sheet music investment. 9 of 9 people found the following review helpful. Great songs! By Honeyhive84I like Dan Coates' translations, he makes it easy to play yet beautiful-sounding. This book is great for beginners or intermediate (like myself) who have not played in a while. 0 of 0 people found the following review helpful. have gone with a big note instead. I would say this is more for the intermediate player.
