Hal Leonard Corp. : Top Hits of 2016 (Top Hits of Piano Vocal Guitar) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Top Hits of 2016 (Top Hits of Piano Vocal Guitar):

Great arrangements for early piano students By RahGood book for early piano students who may just be learning higher (treble) and lower (bass) staff notes (or not solid in their reading of them). I teach piano and have many students who are not able to do an intermediate or even Elementary level yet...or those who don't progress because they don't like the songs in their lesson books. This encourages them to learn new notes because they know the songs and want to perform them for friends and family. I just wish I could find a similar book that is somewhere between this easy book and the more difficult books. 0 of 0 people found the following review helpful. 2 out of 16 songs are worth it By Melodie Laine Fox I teach piano and voice. I do not know pop. I love Pink's Just Like Fire, so I bought the book, hoping the other 15 songs would be worth buying the whole book. Let's be

clear. I had no idea what any of the other songs sounded like. I doubt I had ever even heard any of them before. I sightread through the book, singing and playing. Only one other song was worth learning so I can use it to teach. The rest was just uninspired repetitive crap. If the lyrics were good, there was no melody. If the melody was good enough, the song form was juvenile and unplanned. If you want to copy the rap words instead of rap yourself, this may be a good book for you, but I'm not going to put the effort into songs that aren't for singers. Rather than buying the book, I recommend you buy separate sheet music formats of only two of the songs: Just Like Fire and One Call Away. She's an advanced player, and can sit down and sight read these for fun. Probably a little tough for a beginner.
