It would be nice if it also included a simple lead sheet, hard page turns in this book..... But besides that I love it. Simple and sweet, tracks sound great and also in easy keys. It sounds awesome with

my panflute , perfect middle range.....3 of 3 people found the following review helpful. Love this book!By peavysberryThis book is perfect for those students who read music fairly well and want to learn chord charts and improv. I have used it for students who want to play in worship bands. I teach them the song with notes first. Then, we go to the chord charts (I write the chords in) and play along with the CD. It's like playing with a band, and they learn to play chord charts and fills.
