Another delight from Greta EichelBy CarolynnGreta Eichel is a talented writer who brings a delightful sense of humor to bear when describing the joys and challenges of sixty plus years of marriage to her artist husband. This is a book that will definitely elicit smiles, grins, and occasional laughing out loud.

Trashing Stu Two is the further adventures of Greta Eichel and her artist-husband Stu continuing their incredible journey. She calls sixty years of life with Stu, An embarrassment of riches. Jill Wing wrote in the Foreword to this book: Every writer has a muse something or someone who inspires a person to write. She knows her muse is her husband. Greta told how her marriage survived her first book about Stu: When someone asked my husband how he felt about me writing Trashing Stu, he replied: Greta doesn't tell me what to paint and I don't tell her what to write. We still love each other, and now we will have to wait and see whether or not Trashing Stu Two is also survivable. Greta thanks Stu for supplying her with a new story every single day.
