CortesFirst of all to put things in context, I am about an intermediate to advanced player, a music major about 30 years ago in my college days and still play in several bands on other instruments, but just an average sight reader on piano. I really like show tunes and I thought they would be a good vehicle to improve my sight reading. I have several books of the Reader's Digest series and some of them have show tunes and jazz standards so i thought this book would just be a repeat of those arrangements, but they are not. This book has arrangements that are more professional sounding with more and better chord substitutions, intros and endings than the other books, so I would classify these arrangements as slightly more advanced than the arrangements than in the other Readers Digest books. But to put put it into context, these

arrangments are not as advanced as say in the Advanced Piano solos book by Tom Roed, which by the way are great. I would buy this book.2 of 2 people found the following review helpful. So happy with this purchaseBy Old BuzzardSo happy with this purchase! Awesome interesting arrangements by Dan Fox, now 81 and leading his jazz band playing 20s and 30s jazz . 90 famous songs with great chord progressions, interesting rhythms, and embellishments. Not too easy and not too hard.Enough good music with exciting arrangements to keep you interested for a long, long time. It's fun to see where one of his chord progressions will lead you. Some of these songs I'd forgotten about and playing them again is like finding old friends, I stumbled on to my first Readers Digest songbook, arranged by Dan Fox, at a garage sale a few months ago. I've enjoyed his arrangements so much I looked for them here at and was elated to find more. Though listed as "good condition" they seem like new.1 of 1 people found the following review helpful. Great format, Great Tunes!By Bert ChristiansonA classic book with well edited tunes. Nice page turn pages lay flat, cord symbols and easy to read lyrics and notes. Also nice story about each show tune. I've been playing the Reader's Digest piano books for 30 years and this volume completes my collection of all 12!

This outstanding hardcover collection features 91 all-time gems by this century's most famous musical composers. The arrangements by Dan Fox were designed to be easy to play while remaining musically interesting and artistically gratifying, and work with treble clef instruments, "C" instruments, guitars, and organs. Each song comes complete with an introduction that gives important and enlightening notes on the song's origins. Songs include: All the Things You Are * Anything Goes * Give My Regards to Broadway * Look for the Silver Lining * Maria * Night and Day * One * Sunrise, Sunset * Tomorrow * and more. Also comes with a separate lyric book, perfect for singalongs around the piano!
