Mindome Ltd. : Tredoku: 3-D Puzzles Based on the Rules of Classic Sudoku before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tredoku: 3-D Puzzles Based on the Rules of Classic Sudoku:

0 of 0 people found the following review helpful. Grid And Bear It...By Bindy Sue FrnknschteinIs TREDOKU: 3-D PUZZLES ETC. the best 3-D Sudoku book ever? Well, no, but it is good. Especially for beginners. I do this during downtime at work. It would also be perfect for waiting rooms, or similar dull stretches of eternity where others are

stuck w/ out-of-date magazines or idiot TV. Yes, the pages are simple, paperback quality. Still, I've had no problems...1 of 1 people found the following review helpful. perfect gift!By Bubba Knows BestThis was a gift for my mother for Christmas. She loves the 3D Sudoku puzzles and this one was a very good one. She was happy and that made me happy.0 of 0 people found the following review helpful. Great brain ExerciseBy tytusIf you are a casual or expert sudoku solver these puzzles are great. Its an interesting twist to the standard puzzles. I enjoy this style more than the standard.

The next must-have for every puzzle enthusiast: a collection of challenges that takes Sudoku to the next level, literally. Finally, the next big thing in puzzles has arrived-a three- dimensional number logic game based on the rules of Sudoku. Tredoku(tm) features one hundred unique, handdrawn puzzles with an endless variety of shape possibilities, breaking out from the three-by- three square of the game puzzlers are accustomed to. Challenging players on a whole new geometric level, Tredoku(tm) uses three- dimensional play to test readers' logic and visual perception. Millions of Sudoku fans can't be wrong-and this is the next craze they have been waiting for.
