By Douglas R. Rushing
Several years ago I read Richard Rhodes' award-winning book, "The Making of the Atomic Bomb." "The Girls of Atomic City" is a wonderful, compellingly readable companion to Rhodes' book, adding facts his did not have room for, especially the essential contributions that "ordinary" women made to the success of the Manhattan Project in a created town in the Cumberland mountains of Tennessee. Kiernan's prose is clear and pulls you along as she tells the stories of several women who did not really know what they were working on. She also gives honest insights into the social milieu of times, including racial and gender discrimination. Highly recommended.

It would have been more readable to me if there were more "human interest" stories and less "how to make an atomic bomb"
