**From G. Schirmer : Trott: Melodious Double-Stops for the Violin (Complete)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Trott: Melodious Double-Stops for the Violin (Complete):

8 of 8 people found the following review helpful. Nice large print for us older players By AbleI violin teacher let me borrow her copy of this book to practice with. I liked it and decided to purchase my own copy. My teacher was impressed with the fact that two editions had been combined into one book and that the print size was made a little bigger. If you need to perform lots of double stops in your music choices, this is a great practice/training reference. 6 of 6 people found the following review helpful. Good for the Celtic player as well! By Charles Sinclair I play fiddle in an Irish band. While the Celtic music idiom uses double-stops in a different manner and style, the systematic practice

from this book helped my playing immensely. 0 of 0 people found the following review helpful. Great for students! A must have! By Customer As a violin instructor I highly recommend this book to my students as it builds their understanding of double stops and intervals in a fun way. The exercises are designed as songs so its not like they are just learning drills. This book is a great springboard for students wishing to play more advanced pieces involving chords/double stops and counterpoint melodies on violin.

(String). The two volumes of Trott's widely used etudes are combined into one convenient, affordable volume.
