**Geo. Wm. CURTIS : Trumps** before purchasing it in order to gage whether or not it would be worth my time, and all praised Trumps:

Worth reading from a historical perspective.By Nancy MacI was using a quote by the author and when I searched to see who I was quoting, I stumbled on this book. Since it was published long ago, the plot moves slowly (why it's a 3 vs 4) but the descriptions and word use kept my interest. Worth reading from a historical perspective.
