Good to have on hand to keep from tearing your hair out.7 of 7 people found the following review helpful. Almost uselessBy David PuntilloThis guide is almost completely useless. I played through Turok without needing the guide and it is a good thing because the guide was poorly put together. No maps, no waypoints or landmarks to tell you where they are talking about in the game.The only part of the guide I liked were the weapon descriptions.I would not reccommend this guide to anyone, it is not needed to beat the game and it would be of minimal help anyway.
