Dimension Publishing : Twisted Metal: Black (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twisted Metal: Black (Prima's Official Strategy Guide):

0 of 0 people found the following review helpful. Great Product Great Price!By B4 It's 2 LateThis is a super fantastic great product at a great price. I'm very happy with it and glad I made the purchase. You will be too, so don't wait until they are all gone. Trust me, if I didn't like it, I wouldn't say that I did. I like it a lot.0 of 0 people found the following review helpful. a reference book that defines the gameBy Marcus SmithThe Twisted Metal Black strategy guide... it's not just a book with maps and probable cheats but has a descriptivelisting of every character in the game, including Sweet Tooth... the main character. What wasn't mentioned in the game manual is in the guide. Well defined.1 of 1 people found the following review helpful. Weak, hard-to-read, and not much help.By A CustomerI don't know why the layout people at Prima seem to think that every page has to be saturated wall-to-wall with all kinds of dark colors

and graphics. Combined with the funky fonts and goofy layouts, it's hard to read, and the maps (which to me are key) are a fuzzy, low-contrast mess that don't convey any information about the exact locations of key items/areas, no indication of the 3D nature of the terrain (like where walls are, or where "one-way" jumps are, etc.) It also offers little in the way of strategy per level as different vehicle types, and virtually no information about the nuances/strategies of playing as the different vehicles. No cheat codes are offered, nor any indication of what you can expect to unlock for doing certain things. It'd be so easy to do one of these right, if they'd take the time. Personally, I just want useful info that's clear, complete, and easy to find, and not some "xtreme", over-the-top graphic-heavy fluff. I'm sure if they took the time to ask, even the younger audience would agree.

Will you be the one left standing? Detailed explanation of all game modes and options Strategies for general combat and weapon usage, as well as battleground-specific recommendations Detailed maps of all battlegrounds for story and multiplayer modes Location of all weapons, pick-ups and health boosts in each battleground including details on the environmental pick-up unique to each battleground Description of each battleground and how to use the surroundings to your advantage Summaries of each character's background and the strengths and weaknesses of their particular vehicles Instructions for unlocking hidden vehicles.
