**BradyGames : Twisted Metal Signature Series Guide (Signature Series Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Twisted Metal Signature Series Guide (Signature Series Guides):

0 of 1 people found the following review helpful. Five StarsBy Party Time !!AWSOME GAME !! :)2 of 2 people found the following review helpful. Kinda sucksBy Hemorrhaging OrificeYa lets see first Axel is not mentioned in this "guide" at all.There's a part were they list the weapons and then the max damage of each said weapon.Problem is some do alot more damage then the "guide" would have you believe.In the guide a power missile does about 45 to 50 (I forget the exact number) however if your moving towards the vehicle when your firing off the missile it can easily do 75 damage.So far these are the only really obvious discrepancies yet I would like to point out that I cough up money for these things for the thouroughness not to hear what the author thinks so much as facts of the game that maybe crucial to unlocking/finding treasure/features.On a side note I had bought a Mortal Kombat "guide" for the

fatalities and half of them weren't in there. It said all fatalities included and I actually managed to return it for store credit based on the fact that it's a lying piece of crap. Overall this game does not really need a strategy guide, it's like buying a guide for Tekken 6...why bother all the moves are in the game, some combos to. Buy it if your a guide nut...but for others skip you won't be missing much that you can't get online or figure out on your own.
