The Inventions of Bach received in great shape and I'm enjoying them immensely By Customer The Inventions of Bach received in great shape and I'm enjoying them immensely. Reproduction, in its original size, of the 1723 manuscript which represented the composer's final intentions. Also reprinted here is the famous Bach-Gesellschaft edition of 1853 (based on the autograph), edited by Carl Ferdinand Becker. Both versions printed in large, clear format for reading, study, use in performance.
