Johann Sebastian Bach : Two and Three-Part Inventions before purchasing it in order to gauge whether or not it would be worth my time, and all praised Two and Three-Part Inventions:

0 of 0 people found the following review helpful. Five Stars By David Nunez Excellent seller and product received as described! Thanks! 9 of 10 people found the following review helpful. Not for the faint at heart... By Stephen Gamboa I think these last two reviews are nonsense. Look at what you're buying before you buy it! If you're looking for an inexpensive reprint of the manuscript facsimile because you're tired of making trips to the reference section at the library, this edition is for you. However, know that this is an original setting of these compositions, and it includes the original clefs they were composed in along with the idiosyncracies of Bach's handwriting. However, if Bach's ten-year-old son could read from these, then you can, too. 36 of 37 people found the following review helpful. Warning: This is a facsimile of the manuscript. By A Customer Although it may be interesting to own a copy of Bach's manuscript of

these pieces for study, I expected an edited edition when I ordered. Bach doesn't use the treble clef and it's hand-written not type-set. Furthermore, the inventions are printed landscape to the binding making playing from the book almost impossible.

Reproduction, in its original size, of the 1723 manuscript which represented the composers final intentions.
