From Kalmus Classic Edition : Two-Part Inventions (Kalmus Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Two-Part Inventions (Kalmus Edition):

1 of 3 people found the following review helpful. easy to read a joy to play! By Rufus I enjoy playing from this Kalmus edition regularly. The pages are large and print dark for easy reading, notation is well spaced too and the fingering helpful. It's joy to play from this book. I have found Kalmus editions of Bach most agreeable. 0 of 3 people found the following review helpful. Practically worthless By pr This is really worthless. The layout is a couple of lines at a time. A waste of money. Buy a print edition or wait until something more useful comes out in an electronic format.

This collection includes a preface and a table of embellishments.
