Guillermo Gomez : Two Worlds for Diomedes before purchasing it in order to gauge whether or not it would be worth my time, and all praised Two Worlds for Diomedes:

Diomedes is the ultimate warrior yet has a tender side to him as shown by his love and compassion for the widowed Greek princess and her son. It's a different kind of sword and sandal epic with all the sci-fi and morality/fate ideas. Many events feel almost mythological but actually come across as quite plausible. There's plenty of fighting with enemy warriors and fierce alien beasts that keep the action going. The mighty Spartans are as tough as

ever.

Diomedes, a Spartan warrior forcibly taken by an alien being to a distant and mystical planet, confronts his troubled past and finds romance while battling his enemies in an attempt to get his people home. On a world where wars can only be fought with swords and spears, he leads a veteran Spartan army that answers the call to battle. Amidst ruins of a civilization destroyed long ago, a great technology still functions. Seemingly the work of the gods, one drink from its atomically altered waters has the power to grant total enlightenment or painful judgment. Called the "Waters of Knowledge", warring powers seek its control with the fate of this world and even that of Earth in the hands of the victor.
